

HOPKINSVILLE, KENTUCKY.
A live and growing city of 8,000 inhabitants, situated in a county of 40,000. The Louisville and Nashville has two lines of railroad in the county and the people have recently voted out to two new roads. Largest tobacco growing county in the world. Wheat, corn, hay, coal, live stock and fruit produced for export to foreign countries. The city is to be built with an aggregate capital of \$10,000. A planing mill and wagon factory, three carriage factories, lime factory, tobacco manufactory, two foundries, three brick yards, brown factory, steam laundry, ice factory, two large flouring mills in the city and several in the country. Two large steamship companies have houses. Fire department centering in Hopkinsville. Building and Loan Association, Commercial Club, a telephone exchange, numbered streets and houses and city lighted by gas. Standard Oil Co. and several others, oil companies, etc. First church, two colleges, a high school and the system of public schools, white and colored, in the State. Western Kentucky Lunatic Asylum with a population of 650, two miles east of the city. A \$100,000 court house with town clock in the dome. A fine hospital and dispensary of Gerard, Little River, which includes an adequate supply of water for all purposes. Real estate low and rents cheap. Fine opening for woolen mills, paper packing establishment, fruit canning, tannery and many other enterprises. Climate mild and invigorating and exceedingly healthy.

Col. Fred Grant is in the dumps because he could not get the Chinese Mission.

Princeton is to have another bank and \$75,000 of the stock has already been spoken for.

The Republics Supreme Court of Indiana is now busy declaring unconstitutional the acts of the recent Democratic Legislature.

It is believed that Gov. Wilson, of West Virginia, will convene the Legislature about June 1 to give it another chance to settle the gubernatorial muddle.

Tascott, the murderer of millionaire Snell, of Chicago, for whom there is a reward of \$50,000, has again been captured (?) by enterprising detectives near Lake Winnipeg.

New Hampshire voted on a prohibition amendment to her constitution a few days ago. A two-thirds majority was necessary, and the prohibition vote fell 7,000 short of enough.

Gov. Wilson, West Virginia's hold-over official, has knocked out both Goff and Carr in the Supreme Court, and will do business at the present stand for the next two years.

Cashier Dent Hoover, of the First National Bank of Nicholasville, has gone crazy. Anything is a welcome change from the stereotyped phrase "gone to Canada."

C. C. Waite, U. S. District Attorney for West Virginia, who was asked to resign, has refused and no cited the Presidents that the only way to get him out of office without cause is to assert his prerogative.

Jno. F. Swift, of California, the new Minister to Japan, was born at Bowling Green, Ky., in 1829. He was defeated for Governor of California by Washington Bartlett, Democrat, in 1886.

The second railroad election in Warren county, held last Saturday, resulted in a victory for the road by 1,700 majority. The road aided this time was the Bowling Green Northern, a paper lie, and it was given \$150,000.

A bill has been introduced in the Minnesota Legislature to prohibit the practice of treading to intoxicating liquors. Should it pass, it will enforce total abstinence upon a great many drinking men and save the candidates many a dollar.

The Democratic State Committee will meet at Lexington March 21 to call a convention to nominate a State Treasurer. The matter is being taken up earlier than usual, and it is understood that an early convention is to be called in the interest of Col. Sharpe, the present incumbent.

The Mercer Sayings and Doings has done the sensible thing and changed its name to the Harrodsburg Sayings. Now if the Fulton Boomerang, the Madisonville Hustler and the Jackson Hustler will remodel and improve their titles, the past will be forgiven.

"Old" Lowry, the young escapee, nephew of the Governor of Mississippi, is again in trouble, having been arrested for stealing two overcoats. If this wicked youngster is trying to make provision for the future, he had better secure a pitcher of ice water and a supply of palm leaf fans. He will find those commodities more serviceable than overcoats.

The Paducah Standard makes this charge: "About one-half the unreliable reports and state 'news' concerning this section is sent out from Hopkinsville. The other half is furnished by enterprising correspondents at Evansville and Cairo."

There is a good deal of truth in this statement, but unfortunately Hopkinsville gets the credit of most of the crimes and sensations served up. This has given this law-abiding city such an unenviable reputation of late that the business men of the city have sent a petition to the Nashville American asking that paper to suppress the foreign "news" appropriated and dished up by its "enterprising" correspondent at this place, which often causes serious detriment to the good name of Hopkinsville.

Jas. C. Clarkson, of Iowa, is the successor of A. E. Stevenson as First Assistant Postmaster General. The understanding is, it is believed, that Wauamaker is to succeed Don Cameron as Senator in 1891 and Clarkson is to be given the vacancy thus created in the cabinet. He is said to be very sore over not getting a cabinet position.

President Harrison has inaugurated one new departure for which he deserves the greatest praise—that of appointing territorial officers from the resident population. The carpetbag system that has prevailed for many years has become as odious to the people of the territories as the same system was to the Southern States during the days of reconstruction. It was one of the mistakes of Mr. Cleveland's administration that he did not inaugurate this much-needed reform.

KENTUCKY KNOWLEDGE.

Mrs. Bruce Champ, wife of the editor of the Bourbon News, died last Tuesday, at Paris.

A fireman was killed by an accident to a freight train, near Standard Friday.

Randolph R. Henry, of Madison county, was killed in a railroad accident in Washington Territory last week.

Another \$25,000 fire occurred in Louisville Friday. Kuhn's Jean Clothing House, corner Seventh and Main, burned.

E. R. Curran fell overboard from an Ohio steamer and was drowned.

Jas. E. Powell, a lecturer from Kansas City, died at Junction City last week of alcoholism.

STATE INDUSTRIAL NOTES.

Natural gas will soon be in use in Louisville, Ky. Sterling and Glasgow. At the latter place two strong wells have been sunk within six miles of the city and \$10,000 has been subscribed to lay a pipe line for the purpose of heating and lighting the city. A similar line has been made near Mt. Sterling.

Several new oil wells have been sunk in Barren county and efforts are being made to establish a great industry at Glasgow for the utilization of this valuable product.

Mrs. Mary A. Peyton has started a factory in Paris which is turning out 500 dozen bustles per week.

The business men of Paris have started a movement for the building of an opera house based upon a principle which if pursued in the other towns in the State would result in the course of a few years in the establishment of many profitable and important enterprises. They have organized a stock company on the Building Association plan, the shares being assessable at the rate of \$5 per month and with the proceeds of the sale of stock the opera house will be built. The same principle could be applied to cotton and woolen mills and other manufacturers which would do well in a great many Kentucky towns.

In 1888 there were 11,000,000 bushels more of coal mined than in 1887 and the prospects are very bright for a large increase in the product during the present year. The value of coal mined in Kentucky has trebled since 1880 and now amounts to nearly 2,500,000 tons annually.

Rice & Co., who established a tobacco factory in Hopkinsville a year ago have been so successful that they are now enlarging their works considerably and will diversify their manufactures.

Geo. A. Collett is about building at Bowling Green the largest brick kiln ever established in Kentucky. It will supply brick for the round houses of the two new railroads about to be built through the city and for the numerous new residences and business houses which will be erected during the year.

A canning establishment that will employ two hundred hands is now an assured fact at Elizabethtown, where stock to the amount of \$3,000 has been subscribed and the business put in charge of a Baltimore man. It will be in operation during the coming season.

C. W. Rodhaugh, of Marysville, Ohio, has located at Richmond where in conjunction with John Doonan he will establish a big carriage factory.

More than \$100,000 is being expended in Richmond in the erection of private residences.

Waterworks are to be built at Russellville, Georgetown, Richmond and Glasgow.

A large number of German immigrants entered the State last week and will settle near Milledgeville in Lincoln county, in the vicinity of which there are already two Austrian colonies, which have been very successful and profitable. The opportunities for fruit raising and truck farming in Lincoln and Iardin counties are exceptionally fine, and in a few years this section could be made among the most valuable in the state.

The Henderson woolen mills pay out an average of \$60,000 yearly to girls who operate their sewing machines, which give an idea of the extent of the woolen business in that thriving and rapidly growing city.

All the elements which nature requires, to make the hair beautiful and abundant, are supplied in Ayer's Hair Vigor. This preparation keeps the scalp free from dandruff, prevents the hair from becoming dry and harsh, and makes it flexible and glossy.

Latham's Drawing.
Mr. C. M. Latham's distribution of prizes was held Saturday afternoon, being conducted by H. C. Gant and representatives of the local press. Mr. Nat Gathier's little daughter, Miss Lizzie, drew out the numbers. The first number drawn got the first prize on the list, the second the next, and so on to the end of the list of 29. The following were the lucky numbers:

375... Rosewood night plane, warranted for \$100.
300... Silk fabric, 100 yards.
317... English Cambray.
348... Life-size doll, dressed.

349... 1/2 doz. fine towels.
349... Fancy bath towel.
2324... Fancy fruit basket.
2190... Bolt Masonic domestic.
3231... Marcelline quilts.
3482... Fair girl's fine suspenders.

Only one ticket holder present drew a prize. He was a colored man named P. P. Fleming, and held 6,220. Up to yesterday only a few of the winners had been heard from.

Mr. J. T. Johnson, who lives a few miles north of town, got the piano.

Mrs. J. H. Anderson held 5,511, Mrs. O. G. Landre 5,547, Miss Fauna Phelps 8,165, which numbers drew handsome prizes, as will be seen by the list above.

PERSONAL GOSSIP.

Harry Ware, of Clarksville, was in town Sunday.
Mr. T. W. Buckner, of Henderson, was in the city Sunday.

Col. M. D. Brown has returned from a visit to Florida.

Mr. S. G. Buckner returned from Frankfort Friday night.

Mr. John Foland returned Sunday from a visit to Frankfort.

Miss Ruth Cooper, of Bennettown, is visiting Mrs. A. M. Cooper.

John Moayon and Mose Elb returned Saturday from the eastern market.

Frank Cook came over from Evansville Saturday, and returned yesterday.

Mr. A. H. Buchanan has returned from a drumming trip through the purchase for Tobin & Co.

Mrs. M. N. Roach has been dangerously ill for a week and her condition is still very critical.

Miss Mollie Dulin, of Morton's Gap, spent Sunday in the city, the guest of Miss Alice Hayes.

Mrs. W. T. Radford, Miss Annie Trice and Miss Mary Radford, who have been in Florida for two months, are expected home to-night.

Mr. W. D. Evans and family, who went to Fort Scott, Kan., last September, returned Sunday, satisfied that Kentucky is the best state in the Union.

Mr. H. F. McKinley, of Cincinnati, inventor of the McKinley Hot Air Engine, is in the city. One of his engines has been in operation in the Kentucky office for two years.

CREAM OF NEWS.

A Baby Found. A dead baby, newly born, was found in an old casket in the rear of a lot on Campbell street, Saturday. Coroner held an inquest, but failed to find anybody who claimed it.

Shooting Affray. At Jullen Saturday night, Grant Hawkins, col., shot Robt. Tyler, the ball passed through the chin and neck and lodged in the left shoulder. The weapon used was a 38 "British Bull-dog." The wound is a dangerous one and may prove fatal.

Crofton Still Dry. A petition containing 330 names, about three-fourths of the voters, was presented to Judge Winfree from the Crofton district Saturday asking that license be refused to would-be liquor sellers in the district. There were two applicants and they were accordingly refused license by the County Judge.

An Unsatisfactory Change. The Nashville accommodation will after next Sunday start from Earlington instead of this place and make that town its laying over place. It will leave Earlington about 1:30 a. m., pass here about 5 o'clock and again at about 8:30 p. m. returning. The time table will be announced later.

Dr. Rodman Will Retire.

Dr. James Rodman, who has been Superintendent of Western Kentucky Lunatic Asylum for twenty-six years, will retire from office at the expiration of his term, April 20. He is not an applicant for re-appointment. It is more than probable that his successor will be Dr. Barton W. Stone, who has been first assistant physician in the institution for nearly twenty years.

Cut His Man.

An old feud had existed between Jim Broadus and Lucius Thompson, both enclaved, for some time, and about 12 o'clock Saturday night they met on the stairway in the Postel Stock when a difficulty was the result. In the round Thompson succeeded in cutting Broadus in the left side, making an ugly and very serious wound. Dr. Lillard, col., dressed the wound of the injured man. Thompson made his escape and had not been arrested at last accounts.

A Drummer in Trouble.

J. H. Creighton, a drummer for a Cincinnati buggy house, was before the County Judge yesterday charged with stealing a bracelet at Greenville, from the value of W. L. Neal, another drummer, who lives at Princeton, Ky. Neal alleges that Creighton got hold of his value through mistake and returned it to him at Princeton after taking out the bracelet, and that he had him arrested and searched and recovered the bracelet, which is valued at \$20. Judge Winfree held Creighton over under a \$200 bond.

Mr. Frankel's Sons' Opening. According to previous announcement, Mr. Frankel's Sons' Great Spring Opening came off Saturday, and to say "it was simply grand" does not fully express it, as this occasion was the grandest of the grand. For the past few weeks this firm has been busy opening and placing their mammoth stock of clothing and shoes preparatory to making this display, unequalled before, and a large crowd rewarded their efforts Saturday, by that presence. The rooms were decorated in bandbox style under the supervision of Mrs. Annie Holland. The Frankel boys start out in this new line of business under the most favorable auspices and we predict for them a large trade, as they so justly deserve.

The annual report of the Western Asylum, the substance of which was given by the KENTUCKIAN last January, has been issued in pamphlet form from the public printer's office.
